A PRIZE FOR SCHOOL CHILDREN

It is well known that in certain sec-
tions of the Territories there exist
poisonous plants that are more or less
injuriously to stock. In order that the
appearance and effects of these plants
may be observed and studied by chil-
dren attending our schools, Dr. James
Fletcher, Dominion Botanist and Entom-
ologist, has offered a prize of five
dollars to be competed for by pupils
in Standards IV and V. Those wish-
ing to compete for the prize should
forward to Mr. D. N. Willing, of the
Department of Agriculture, Regina,
essays dealing with the names, appear-
ance, growth and effects of the poison-
ous plants referred to. Special credit
will be given for all original observa-
tions and for information obtained
from stockmen respecting the remedies
which they have used successfully.
Every essay should be sent in before
August 1st next, and should be ac-
companied by a certificate from the
teacher that it has been written and
composed by the pupil competing.

CARDSTOCK TO EDMONTON

J. E. Bull, of Calgary, in charge of
the territorial operations of the Bull
Telephone Company, spent yesterday in
Edmonton with Alex Taylor, President
of the Edmonton Telephone Company.
Mr. Bull is at present superintending
the building of the long distance tele-
phone from Calgary to Edmonton,
via Calgary. Poles have been con-
structed and in most cases deliv-
ered. Large amounts of supplies are at
present on the way and active con-
struction will commence immediately.
Agents have been appointed in the
various towns along the C & E. The
long distance telephone will be com-
pleted before any country lines are
installed. Construction will likely be
started from Calgary and Lacombe
north simultaneously. It is needless
to mention the great convenience such
a long distance telephone will be to
the various towns on the Calgary and
Edmonton railway, as well as to points
further south.

TO NAVIGATE THE SASKATCHEWAN

Rosher Enterprise.
There is a movement on foot among
prominent Prince Albert business men
to form a company for the purpose of
putting a line of steamers on the
North Branch of the Saskatchewan
river, between Prince Albert and the
point nearest the Barr colony. J. H.
Wilson of the Imperial bank is tak-
ing an active interest in the scheme
and is very anxious of the ultimate
success of the promoters.

If such a system of navigation can
be operated, and we have every rea-
son to believe it can, it would not only
be a boon to all Saskatchewan, as a
very great quantity of grain could
be handled and moved out by this
route. Further developments of the
scheme will be watched with interest.

LEDCO

Seedling is about completed around
here and everything is looking very
favorable spring wheat on some farms
being an inch above ground.

Numbers of settlers are coming in
every day and all are well pleased with
the country and many are writing for
their friends to come out.

Work has been started on the stone
foundation of Mr. Turner's new har-
ness shop, and also Dr. Sutcliffe's
new building on Main street.

Quite a lot of town property has
been charged hands lately.
Seventeen new buildings have been
erected within the last four weeks
and there are many more under con-
struction.

Owen McKay has closed a deal with
Mr. Porter for his farm for a good sum
through the agency of Bouchier and
Johns.

The first monthly fair was held here
last Wednesday and was a great suc-
cess. A large number of farmers leav-
ing their seedling to attend the next
monthly fair will be held on June 3rd
and a large number of horses, cattle,
farm implements and household fur-
niture will be offered for sale.

WETASKIWIN

Wetaskiwin is a town that is receiving perhaps the largest share of the liberal boom now falling to the lot of the numerous towns on the railway line between Calgary and Edmonton. While all towns in the west are growing rapidly, Wetaskiwin deserves special merit in that the nature of its growth is solid and steady. A stranger first visiting the town cannot help but admire the systematic forms of building and growth. The streets are laid out regularly, buildings are erected at uniform angles, which is much more pleasing to the eye than the irregular mass of houses as jumbled together in many towns. Streets are well graded and a liberal amount of sidewalk has been laid to nearly all parts of the town. Another worthy feature is the compactness of the business blocks which gives the streets a city-like appearance. Many of the blocks are very substantial, being three stories high and resting on good stone foundations. Good taste has been shown in painting, of which much has been done. In the residential part neat fences and lawns are prominent. The town has both a very businesslike and very pretty appearance and enjoys a healthy flourishing condition.

The portion of the town on the east side of the railway track has all been built up within the last two years, principally within the last year. It includes two general stores, a grocery store, four hotels, four feed stores, pump works and many other buildings. The population on this side alone will be about 400. A very large trade is done with settlements east for 150 miles. The merchants of Wetaskiwin carry very large and complete stocks. A visit to the general store of Fowler, Murdoch, and Green was made by the writer for a few hurried minutes and reveals the fact that the amount of business done by the town must be enormous, as that stand, while very complete in itself, is only one of a large number. Stores for every line of business are in the town.

The industries include a flour mill, two pump works, two elevators, a creamery and many other enterprises. This year the station has been doubled in size. The number of cars of settlers' effects unloaded this spring was about 250. Wetaskiwin has stolen a march on northern towns by building a good road east to Beaver Lake and the Vermilion settlements, thereby inducing large numbers of settlers by inducing large numbers of settlers to those parts to start from that point. Of course this means that they will buy their supplies at Wetaskiwin and probably continue to trade there. A large wholesale business is done with small country stores throughout the district for 150 miles east. Wetaskiwin is well supplied with churches, but the school accommodations

demands attention. A by-law to build a handsome new school this year was defeated but it is hoped that the building will be erected another year. At present five teachers in all are employed. Some draining could be done to advantage and a good fire brigade will probably soon be attended to. Country roads leading to town are continually being improved.

Wetaskiwin is surrounded by a rich agricultural country and is bound to succeed. Building is being pushed as fast as possible. A new hotel, The Queen's, has just been erected, making seven in all. A weekly newspaper is published. The prospects for a very busy season are splendid. The population at present is estimated to be over 2,000.

MONDAY, MAY 4th, 1903,

200 = LOTS = 200

A portion of the ROWLAND ESTATE, otherwise known as "THE SYNDICATE."

Plans and Prices can be seen at the Office on and after the date mentioned.

This is the closest and best property available, and the choicest in and about Edmonton. The furthest part is from 10 to 15 minutes from the post office. The property is eminently the people's portion: is not controlled by a policy of inertia dictated by "Hebraic Hatred." The surveys conform to existing ones, and the streets will be projected to their legitimate confines. Building Sites on the verge of the hill overlooking the mighty Saskatchewan, the foliage and verdure of whose banks is not exceeded by the fiercest tropics or softest Pacific scenes, abound. Prices will be uniform and moderate, tempered as a corrective of the present indefinite craze.

TERMS.—One third Cash. Balance 6 and 12 months, interest 8 per cent. Agreements \$2 each, transfers free.

Immigration Statistics

Ottawa, May 14.—The vigorous immigration policy which is pursued by the minister of the interior, is shown by the returns of the interior department for the four months ending April. These figures show that the arrivals in Canada from Great Britain alone for the four months have increased by three times those for the same time last year, and no less than five times these for the same period in 1901. The arrivals for April alone number 21,254 as follows: British 9,406; continent of Europe 4,796, and from the United States 7,052.

For the first four months of the calendar year the arrivals for the past three years are as follows:

	1901	1902	1903
British	3,347	5,186	16,487
United States	6,001	9,829	13,770
Continent of Europe	5,015	7,476	10,445
Total	13,363	22,492	40,702

The homestead entries for the first four months of 1903 totalled 10,254, compared with 5,922 for the same period in 1902.
